

MenuAndDockless by MOApp Software Manufactory

© 2003–2011 [MOApp Software Manufactory](#)

Version 1.0.7

Manual

1. Download and install [SIMBL](#)
2. Install [MenuAndDockless](#)
3. Open (restart) desired application – e.g. myTumblr, myWritings or Safari etc.
4. Open its "Window Menu"

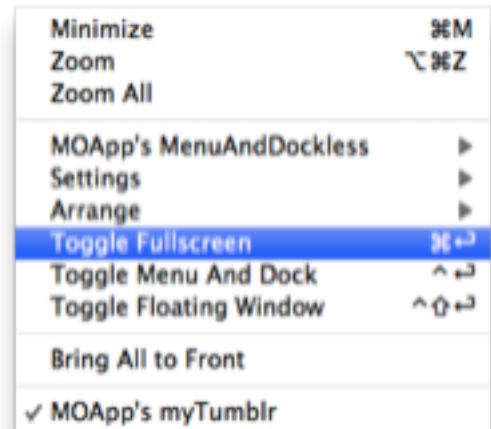

5. Apply global/individual settings for each application

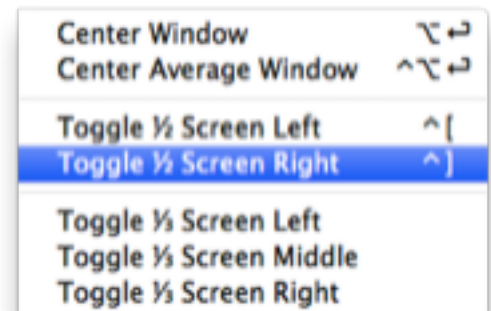

6. Hit control+return (or custom shortcut) to show/hide Menu and Dock
> or use Menu: Window: Toggle Menu And Dock

7. Hit cmd+return or custom shortcut) to toggle the Fullscreen

> or use Menu: Window: Toggle Fullscreen

8. Use other actions to arrange windows

Really? You want to uninstall it?

> simply trash:

/Library/Application Support/SIMBL/Plugins/MenuAndDockless.bundle

You should check for updates from time to time :-)

> use Menu: MenuAndDockless: Check for Updates...

[Found a bug?](#)

[More nifty applications from MOApp](#)

Have fun, [Michael](#).
