**myManuals released!**

Teach. Document. Demonstrate.

MOApp Software Manufactory has crafted and just launched a new software program on the market: myManuals.

myManual is made for creating all kinds of manuals. It's for teacher wishing to have more attractive teaching aids, trainer dreaming of interesting training manuals with screenshots and software developers writing gorgeous user manuals.

With myManuals you succeed in crafting attractive manuals and templates in no time. You are free to customize the design with CSS exactly to fit your needs or your corporate design. You can export each manual to a valid webpage, PDF, XML or RTFD.

The easy-to-use and precise preview supports you in customizing your manual for any export format. In addition you can reuse text and images quite easily within new manuals.

The freedom to design!

By intention myManuals makes use of CSS.

It gives everyone maximum freedom to customize each manual to fit your design needs.

You can test myManuals out in the demo version without any limitations by clicking on [www.myownapp.com](http://www.myownapp.com). myManuals is available at a reasonable price of 14 EURO.

myManuals is compatible with the Mac OS X 10.5.7 or higher.
